PRESS RELEASE
FOR IMMEDIATE RELEASE

*NEOTECH's innovative **PAD-IT TUBA HARNESS**™ brings new versatility to heavy tubas!*

The **PAD-IT TUBA HARNESS**™ from Neotech is the ideal accessory for tuba players who wish to stand or march while playing. It features comfortable shoulder pads with high-tech memory foam that conforms to your shoulders for the best weight distribution of the instrument. The memory foam is designed to wick moisture away from the skin to keep you cooler and more comfortable during longer playing sessions. With numerous points of adjustment, the **PAD-IT TUBA HARNESS**™ is capable of providing a truly custom fit for most any body type and tuba. Its unique design better balances the weight by simply moving the Weight Distribution Adjustment Connectors (see photo above). This moves the instrument's weight to be more upright and stable instead of allowing the instrument to fall forward away from the body.

There are also several attachment options to accommodate tubas with a variety of strap ring configurations. This built-in versatility is particularly nice for musicians with multiple instruments. Visit our website at www.neotechstraps.com to see other details about the **PAD-IT TUBA HARNESS**™. With Neotech's **PAD-IT TUBA HARNESS**™, musicians are free to concentrate on making great music instead of holding onto their tubas! It's sure to become the "must-have" accessory for every tuba player.

Neotech continues to innovate quality products to meet the ever-changing needs of the avid musician. Proudly made in the USA, our products incorporate top-quality materials as we feel you deserve the very best!
